Pair, Antique Carved Elmwood Arm Chairs from China

This attractive pair of arm chairs were crafted in the early to mid 1800's in China. The majority of the original darker finish has been worn away through generations of use, leaving a soft, smooth organic feel to the chairs. Note the traditional curved and carved elements of the top, arms and base in addition to the figural animal carving decorating the backs. Restored, strong and stable, these chairs are ready to be placed in your home. Any knicks, scratches, distress are commensurate with age and do not detract from the function of this pair. Seat height 17.5"
