Antique White Painted Corner Cabinet Cupboard, Sweden circa 1840-60

This pine corner cabinet has lovely paneled doors which compliment the curve of the bonnet or crown.

It is built in two sections and reaches 7' tall. The old white painted finish shows signs of distress, wear and some staining which simply add to the authentic vintage appeal of this Swedish country cupboard. At some point the interior was given a blue painted finish, which will serve as a bright background to what is stored within. Restored, strong and stable; the two old locks currently function with one key included.

Any scratches, cracks, dings, or age related separation are reflective of age and do not detract from the beauty nor function of this Swedish corner cabinet.

See photos of back which show two vertical pieces of wood currently adding support to secure the top to bottom. These will be removed and included in shipping to make transportation and installation easier with two sections.

Please refer to professional photos for clear understanding of color, condition and details; photo lighting, individual monitor display and home lighting may all impact how item is viewed.
