19th Century Craftsman's Model Miniature Chest of Drawers

This delightful miniature chest of drawers served as a floor sales model for a furniture craftsman in the 1800's. It measures approx. 20" high and wide, making it the perfect size to serve as a jewelry case or to store collectibles.

The half column details and painted faux mahogany finish were style elements seen in pine furniture of this era.

This petite chest of drawers is restored so it is stable, ready for use. All nicks, cracks (see top and sides) scratches, age related separation, etc are simply signs of age and do not detract from the beauty nor function of this delightful chest.

Please refer to professional photos for clear understanding of color, condition, and details; photo lighting, individual monitor display and home lighting all impact how item is viewed. Photos are part of item description, please ask questions or request additional photos of specific areas if needed.
