19th Century Large Bronze French Sculpture of Soldier on Horseback

Remarkable large bronze sculpture of soldier with saber on horseback. Note the scale of this sculpture is approximately 8' tall x 8' wide. Typical signs of wear from being out in elements for many years. All scratches, dings, and aged patina are reflective of age and do not detract from the strong appeal of this striking sculpture. Please refer to professional photos for clear understanding of color, condition, and details; photo lighting, individual monitor display and home lighting all impact how item is viewed. Photos are part of item description, please ask questions or request additional photos of specific areas if needed.
