20th Century Walnut Bookcase Display Cabinet with Turned Columns

Small walnut display cabinet crafted in dark walnut. The bookcase features turned column details flanking three doors. The upper door panels contain beveled glass, allowing for clear display of books or collections. Decorative carved detailing runs along the crown and is topped with dentil molding. The lower section of each door features decorative wood panels. The interior opens to reveal adjustable shelving, providing flexibility for storage or display. The two outer sections step back slightly, while the central door projects forward, creating a subtle architectural form. The entire cabinet rests on six bun feet. The outer doors open wide, allowing easy access to the interior.

Restored, strong, stable, and ready to use. Minor scratches and nicks are present, reflecting years of use.

Please refer to professional photos for clear understanding of color, condition, and details; photo lighting, individual monitor display and home lighting all impact how item is viewed. Photos are part of item description, please ask questions or request additional photos of specific areas if needed.

With over 37 years of experience importing and selling European antiques, our brick-and-mortar storefront, Round Top Ranch Antiques (located in Texas), offers one of the largest curated selections in the nation with more than thirty-five thousand square feet of inventory to explore. We welcome you to visit us in person or browse our collection online to find the perfect addition to your home or workspace.
