20th Century Hungarian Rustic Square Coffee Table with Vice Base

20th century rustic square coffee table from Hungary. The base is uniquely constructed using old vice elements, creating an industrial and substantial appeal.

The top was likely part of an earlier work table and shows heavy use including gouges, cracks, deep scratching, age-related separation of planks and residual signs of old wormholes. The thick surface reflects years of practical use and adds to the authentic rustic character.

The square form is uncommon among antique coffee tables and provides a strong, balanced presence.

The table has been restored and is strong, stable, and ready for use. Distress from years of use does not impact function. Please refer to professional photos for clear understanding of color, condition, and details; photo lighting, individual monitor display and home lighting all impact how item is viewed. Photos are part of item description, please ask questions or request additional photos of specific areas if needed.
