Late 19th Century Swedish Beech Veneer Oval Pedestal Side Table

Late 19th century Swedish oval pedestal side table crafted in beech veneer. The table rests on a dramatic pedestal base terminating in four lion's paw feet. The skirt is accented with beaded detail, with minor losses visible. The oval top and strong pedestal form give the piece notable color, shape, and visual presence. The top shows old scratches, gouges, and wear from years of use. The base also shows nicks, scratches, and some cracks, and age related separation. Its classic form allows it to function easily as a side table, entry table, or oval console. Restored, strong, stable, and ready to use. Please refer to professional photos for clear understanding of color, condition, and details; photo lighting, individual monitor display and home lighting all impact how item is viewed. Photos are part of item description, please ask questions or request additional photos of specific areas if needed.
