Early 19th Century Swedish Gustavian White Painted Pine Cabinet with Drawers

Early 19th century Swedish Gustavian cabinet crafted in pine. The cabinet features a newer layered antique white painted finish, distressed to reveal natural wood beneath and reflect its age. Traditional crown or bonnet and rests on cabriole feet with scalloped skirt. The upper cabinet opens with a lock and key to reveal three standard shelves and a curved upper fourth shelf. Below are five drawers fitted with round brass ring pulls.

This 6.5' tall cabinet is built in two sections for easier transportation and installation. The key for lower drawer section is included and may be used decoratively. The cabinet has been restored and is strong, stable, and ready to use. Age-related cracks are visible along the sides and panel doors, along with typical scratches, nicks, and dings throughout. Please refer to professional photos for clear understanding of color, condition, and details; photo lighting, individual monitor display and home lighting all impact how item is viewed. Photos are part of item description, please ask questions or request additional photos of specific areas if needed.
