19th Century Four Drawer Pine Chest of Drawers, Denmark

Antique pine chest of four drawers resting on bun feet. Gentle curves/carving to top drawer, dove-tail joints and brass pulls. Note the natural wax finish that brings out the warmth of the pine.

Restored, this dresser is strong, stable and ready for use. Drawers function.

All nicks (top), scratches, cracks (top /drawer fronts, feet, etc), aged separation (sides) or signs of wear reflect the generations of use and do not impact function. Old repair to one drawer and signs of dried, inactive wormholes add to overall aged character of this pine dresser. Please refer to professional photos for clear understanding of color, condition and details; photo lighting, individual monitor display and home lighting may all impact how item is viewed. Photos are part of item description, please ask questions or request additional photos of specific areas if needed.
