19th Century French Oak Chest of Drawers or Console Table with Cabriole Legs

19th century French chest of drawers or console table crafted in oak. The piece features two drawers over one long drawer. A curvaceous skirt with decorative carving defines the lower profile. The cabinet is raised on tall cabriole legs terminating in carved claw and ball feet.

The top shows gouges, stains, cracks, and visible distress from generations of use. This chest has been restored and is strong, stable, and ready to use. Its proportions and form allow it to function in a variety of settings, including as a chest of drawers, console table, side table, or entryway piece. Please refer to professional photos for clear understanding of color, condition, and details; photo lighting, individual monitor display and home lighting all impact how item is viewed. Photos are part of item description, please ask questions or request additional photos of specific areas if needed.
