19th Century Pine Two Door Sideboard from Denmark

Danish pine sideboard with carved arches along two front door panels. Doors are flanked by elaborate turned half columns and topped by two drawers. Restored and waxed, this cabinet is stable, strong and ready for use. Drawers function. All scratches, cracks, dings, variation in color, stains and age related separation are reflective of age and do not detract from the beauty nor function of this delightful pine sideboard. Note, old locks and keys work inconsistently and with some difficulty, we suggest using keys as pulls only. Please refer to professional photos for clear understanding of color, condition, and details; photo lighting, individual monitor display and home lighting all impact how item is viewed. Photos are part of item description, please ask questions or request additional photos of specific areas if needed. Minor signs of old dried wormholes, back appears to have been repaired at some point in past.
