Mid 19th Century Danish Pine Highboy Chest of Seven Drawers

Mid 19th century Danish highboy chest, crafted in pine. This narrow chest features seven drawers and a traditional curved crown at the top, giving the piece a classic and useful form with strong vertical presence. Raised on carved feet, the chest has a handsome silhouette that works well in a variety of interiors. Visible old wormhole distress adds to the aged character of the piece. Restored stable and ready to use. Scratches, cracks, nicks, gouges, and old repairs are present throughout but do not impact function. Some staining is seen along the top, though it is difficult to notice due to the height. Old repairs are also visible around the front corners near the feet.

Please refer to professional photos for clear understanding of color, condition, and details; photo lighting, individual monitor display and home lighting all impact how item is viewed. Photos are part of item description, please ask questions or request additional photos of specific areas if needed.
