19th Century Swedish Pine White Chest of Four Drawers

Antique pine chest of four drawers, with traditional fluted carving along the top narrow top drawer. Half column details flank each side.

The recent white painted finish adds new life to this pine dresser and is slightly distressed to fit the age and grace of this chest.

Restored, strong and functional, this is ready to be used and enjoyed. Drawers function with use of two brass pulls on each. All scratches, cracks, dings, and age related separation are reflective of age and do not detract from the beauty nor function of this lovely piece. Note some of the nicks along the top.

Please refer to professional photos for clear understanding of color, condition and details; photo lighting, individual monitor display and home lighting may all impact how item is viewed. Photos are part of description, please ask for additional photos of specific areas of question or concern.
