20th Century Rustic Coffee Table from Hungary

The appeal of this rustic coffee table comes from the thick hard wood top that originally served as a work table, resting on strong squared peg legs.

Note the many gouges, nicks, old cracks, small holes and stains that all combine to build the vintage character of this coffee table. There is an age-related separation of planks that create the top.

This coffee table has been restored, sanded and waxed so it is strong, stable and ready to use and enjoy. Please refer to professional photos for clear understanding of color, condition, and details; photo lighting, individual monitor display and home lighting all impact how item is viewed. Photos are part of item description, please ask questions or request additional photos of specific areas if needed.
