19th Century Danish Pine Chest of Four Drawers

Antique pine chest of four drawers resting on bun feet. Traditional fluted column detail, simple carved top narrow drawer, dove-tail joints and brass pulls.

Note the natural wax finish that brings out the warmth of the pine.

Restored, this chest of drawers is strong, stable and ready for use. Drawers function. All nicks, scratches, cracks (largest along back), stains (top), aged separation (see trim along top) and signs of wear reflect the generations of use and do not impact function. Note remains of old wormhole activity (all dried and inactive; see feet) that add to the aged character of this dresser.

Please refer to professional photos for clear understanding of color, condition and details; photo lighting, individual monitor display and home lighting may all impact how item is viewed. Photos are part of description; you are welcome to ask for additional photos of specific areas of interest.
