Early 20th Century Danish Pine Small Chest of Four Drawers Nightstand

Early 20th century Danish small chest of four drawers, crafted in pine with a natural wax finish that brings out the warmth and character of the wood. Its compact proportions make the chest especially well suited for use as a nightstand or bedside storage piece.

Four functional drawers provide useful storage, with each drawer fitted with two simple wood knobs. The restrained design allows the natural pine and signs of age to remain the primary visual features. Generations of use are evident throughout, including multiple cracks along the top together with typical scratches, stains, nicks, and additional cracking. Both sides show age related separation that appears as larger vertical cracks. The drawer bottoms appear to have been replaced at an earlier point in time.

Restored, stable, and ready to use. The wax finish compliments the variation of color and tones in the natural pine. Please refer to professional photos for clear understanding of color, condition, and details; photo lighting, individual monitor display and home lighting all impact how item is viewed. Photos are part of item description, please ask questions or request additional photos of specific areas if needed.

With over 37 years of experience importing and selling European antiques, our brick-and-mortar storefront, Round Top Ranch Antiques (located in Texas), offers one of the largest curated selections in the nation with more than thirty-five thousand square feet of inventory to explore.
