19th Century French Elmwood Bookcase Display Cabinet with Upper Glass Doors

Large 19th century French bookcase or display cabinet crafted in elmwood, featuring six upper glass-paneled doors above six lower solid paneled doors. The natural elm finish reveals distinctive grain patterns across the cabinet fronts, creating a warm and substantial example of French country craftsmanship.

The upper glass doors provide an attractive display area for books, serving ware, ceramics, and collections. Adjustable shelves in both the upper and lower cabinets offer flexibility for arranging items of different heights, while the solid lower doors provide concealed storage.

The elmwood doors have shifted over time and no longer sit perfectly flush within their frames. As a result, the original locks are no longer functional, and the keys serve as pulls only. The upper doors rest in position when closed, although their alignment is not exact. The lower doors are secured using simple metal latches positioned near the upper edges securing doors in place.

Age related cracks are visible throughout, with more pronounced cracking and separation along the lower sides. Additional cracks and an old repair can be seen along the upper crown. These signs of wear reflect the cabinet's history and traditional wood construction.

The cabinet rests on low bun feet and has been restored, stabilized, and prepared for use. An impressive French elmwood bookcase combining expansive glass-front display, adjustable shelving, and practical enclosed storage.
